

## Some Selected Ski Routes

**Longhouse -China Loop -Longhouse 3.45 km**

**Longhouse-China Loop twice -Longhouse 5.6 km**

China Loop is a favourite trail for novice skiers and offers access to the China Loop shelter.

**Ridge to Rueben Jones shelter return on Ridge 11.2 km**

**Ridge to Ruben Jones, return Logging Road-Biffy by pass -Ridge 11.35 km**

**Ridge-Harkers to Rueben Jones -return Logging Road -Biffy by pass -Ridge 14.7 km**

Many skiers prefer to do this loop in reverse (go to Rueben Jones on the Ridge / Biffy by pass and return on Harkers). This allows for a long, relatively easy descent on Harkers, but means a steep uphill climb at the end of Harkers to go over the Chilcotin pass

**Ridge – China Ridge cabin -return on Ridge 16 km**

**Ridge - Lind Burn to Bob's Shelter return 18 km**

Notes: all loops start /end at Longhouse

adding in the China Loop increases distance by 2.35 km

adding in the Loggers Loop increases distance by 1.5 km

avoid hills by taking Ridge by pass (instead of Ridge)-same distance

taking Lind Loop is about same distance as staying on Lind Burn

all trails are two way - loops can be skied in reverse
